

# Get your medications at the best price

Trying to get the best price on your medications can be overwhelming. We're here to help.

We enhanced our capabilities to help you get the lowest price on your medications by searching across the contracted pharmacy price and multiple discount card prices. To get the lowest price, all you need to do is present your member ID card to the pharmacy and we'll do the rest. No more searching for discount cards and coupons or scanning codes.

**WITH YOUR MEMBER ID,  
YOU CAN SAVE UP TO**

**80% NON-COVERED  
GENERICs**  
and over-the-counter products

**96% COVERED  
MEDICATIONS**

## → Here's how it works

Simply present your member ID card at a participating pharmacy the next time you fill a prescription; no need to use any other card. The most frequently used participating pharmacies are listed on the next page.

- You'll get the lowest available price between your health insurance price or, if available, a number of different discount cards.
- Over-the-counter (OTC) medications not covered by your health plan may also qualify for a discount. To see if an OTC medication qualifies, present your prescription to the pharmacy with your member ID card, and you will receive the lowest available price.
- Purchases for medications that are covered by your health plan will count toward your deductible and out-of-pocket.
- Log into your member account to search for in-network, participating pharmacies and see the lowest available price on your medications.

## FREQUENTLY USED PHARMACY CHAINS
