Prescription Drug List (PDL)

This Prescription Drug List is a list of medications included in most prescription drug benefits. **Coverage of preferred and non-preferred drugs is subject to your prescription benefit plan design.**

A Pharmacy and Therapeutics (P&T) Committee reviewed and approved this medication list. All medications on the list were selected after consideration of safety, effectiveness, uniqueness and cost. The Committee includes practicing physicians and pharmacists dedicated to providing patients with high-quality, cost-effective drug therapy. The Committee meets periodically to consider updates to the Prescription Drug List.

Medications listed in this booklet are preferred drugs. Drugs not listed are non-preferred.

At your health care professional's office:

- Show this booklet to your health care professional each time a prescription is written.
- Ask your health care professional if there are appropriate generic drugs to treat your condition.

At the pharmacy:

- Bring this booklet to the pharmacy each time you have a prescription filled.
- Ask the pharmacist to fill your prescriptions with generic drugs, when appropriate.

Generic drugs are as safe and effective as their brand counterparts, and generally have a lower copay or coinsurance than brand drugs. To encourage the use of generic drugs, brand preferred drugs usually move to non-preferred status after a generic version becomes available. Preferred drugs are subject to annual review. Drug additions/removals may occur quarterly. However, the prescription drug list may be updated at any time without notice.

Specialty Drugs

Some Blue Cross and Blue Shield of Nebraska (BCBSNE) groups offer specific benefits for specialty drug products. Please refer to your Certificate of Coverage and/or Schedule of Benefits to determine the specific quantities allowed under your group's benefit. Specialty products are typically injectable drugs that can be self-administered by a patient or family member and are used to treat serious or chronic medical conditions such as multiple sclerosis, hemophilia, hepatitis and rheumatoid arthritis.

For More Information

To access a searchable version of the BCBSNE PDL, visit **[NebraskaBlue.com/DrugList](https://www.nebraskablue.com/DrugList)**. If you have questions about your prescription benefit or how to use this booklet, please call the number on the back of your member ID card.

How to Use This List

This list is organized into broad therapeutic categories. For example, Anti-infective Drugs is a broad category. Within most categories, drugs are sub-grouped based on drug class, for example, under Anti-infective Drugs you will find penicillins. All drugs listed, whether generic or brand, are preferred drugs. The graphic below shows the information that is provided in each column of the medication list and is an example only.

1 Drug Name	2 Specialty	3 Maximum Monthly Quantity
GENITOURINARY DRUGS		
URINARY TRACT INFECTIONS		
MACRODANTIN – nitrofurantoin macrocrystalline cap 25 mg		
nitrofurantoin macrocrystalline cap 100 mg (Macrochantin)		
nitrofurantoin macrocrystalline cap 50 mg (Macrochantin)		
nitrofurantoin monohydrate macrocrystalline cap 100 mg (Macrobid)		
nitrofurantoin susp 25 mg/5ml (Furadantin)		

- 1 The first column of the chart lists the drug name. Generic drugs are shown in lowercase **boldface** type. Preferred brand drugs are listed in all CAPITAL letters.
- 2 The second column indicates if the drug is a specialty drug. Note: Additional information about specialty drugs can be found on the previous page of this document under the header for Specialty Drugs.
- 3 The remaining columns indicate the Utilization Management (UM) program(s) that apply to the prescription drug (e.g., Maximum Monthly Quantity). If an indicator is present in the column(s), then the UM program noted is possibly applied to your benefit. Some plans may have UM on additional medications beyond those noted in this document.
