

Preventive prescription drug list for PDL 10

The following list of prescription medications, over-the-counter (OTC) medications and supplies may be covered under your plan as part of the Affordable Care Act (ACA). Benefits for the items listed here are covered at no cost to you when they are obtained from a Blue Cross and Blue Shield of Nebraska (BCBSNE) network pharmacy provider, subject to the gender, age and frequency limits indicated, not to exceed the plan's retail or mail order day supply limit.

For OTC products to be processed as in network at no cost to you, you will need to obtain a prescription from your health care provider. OTC items must be purchased at the pharmacy counter instead of the retail store's upfront cashier.

To confirm if your plan's benefits are subject to this list, please call the Member Services number on the back of your member ID card.
