

Vision Care

Applies to:

Blue Cross Blue Shield Nebraska MA Core (HMO)
Blue Cross Blue Shield Nebraska MA Choice (HMO-POS)

Vision Care

Vision care is designed to cover a member's preventive and routine visual needs, such as glaucoma testing for those at high risk, routine eye exams for both preventive and diagnostic purposes, and eyewear for corrective purposes.

Original Medicare

Original Medicare covers glaucoma tests once every 12 months for people who are at high risk. The beneficiary is at high risk if they have diabetes, a family history of glaucoma, are African-American and 50 years of age or older, or are Hispanic and age 65 or older. An eye doctor who is legally authorized by the state must perform the test.

Original Medicare also covers one pair of eyeglasses with standard frames (or one set of contact lenses) after cataract surgery that implants an intraocular lens.

Original Medicare does not cover routine eye exams.

MA Core (HMO) and MA Choice (HMO-POS) Enhanced Benefit

MA Core (HMO) and MA Choice (HMO-POS) are Medicare Advantage Plans, which provide at least the same level of benefit coverage as Original Medicare (Part A and Part B) and may provide enhanced benefits beyond the scope of Original Medicare within a single health care plan. This flexibility allows Blue Cross and Blue Shield of Nebraska to offer enriched plans by using Original Medicare as the base program and adding desired benefit options.

Coverage for routine vision care benefits is provided to members under both the individual MA Core (HMO) and Choice (HMO-POS) plans. Additional coverage for supplemental eyewear is provided to members under the Choice (HMO-POS) plan. Since Original Medicare does not cover routine vision care and supplemental eyewear, the scope of the benefit, reimbursement methodology, maximum allowed payment amounts and member cost sharing are determined by Blue Cross and Blue Shield of Nebraska. Routine eye care must be provided by a VSP provider.

Eye Exams

A routine eye exam is a complete assessment by an ophthalmologist or optometrist. The exam includes refraction, glaucoma testing, and other tests necessary to determine overall visual health. One routine eye exam is covered per any period of 12 consecutive months.

Conditions for Payment

In-network benefits are provided by Vision Service Plan (VSP) providers. Members can find a VSP provider by calling 1-800-877-7195. TTY users call 1-800-428-4833. Hours are 5 a.m. to 8 p.m. Pacific time, Monday through Friday, 7 a.m.

Reimbursement

Provider reimbursement is handled directly through VSP. The provider will be paid the lesser of the allowed amount or the provider's charge, minus the member's cost-share. This represents payment in full and providers are not allowed to balance bill the member for the difference between the allowed amount and the charge.

Member Cost-sharing

- NE Medicare Advantage providers should collect the applicable cost-sharing from the member at the time of the service when possible. Cost-sharing refers to a flat-dollar copayment a percentage coinsurance or a deductible. Providers can only collect the appropriate NE Medicare Advantage cost-sharing amounts from the member.
- If the member elects to receive a non-covered service, he or she is responsible for the entire charge associated with the non-covered service.

To verify benefits and cost share, providers may call 888-505-2022.
