## SHADES OF BLUE

With the Shades of Blue sunglass benefit, your employees and their covered spouses can enjoy a FREE pair of designer sunglasses every other year. A routine eye exam is all that is needed to trigger this benefit, and they will have dozens of designer sunglass options to choose from including Oakley, Ray-Ban and more!

The Shades of Blue benefit is in addition to the benefits already provided within a selected plan, so they can enjoy a new pair of sunglasses along with their new eyeglasses or contact lens benefits.

## WE MAKE IT EASY FOR YOU TO CHOOSE THE RIGHT OPTION FOR YOUR EMPLOYEES

First, decide if your group will be contributing to premiums. If yes, then please view the “**contributory rates**” columns. If your group will not be contributing towards the premiums, then view the “**voluntary rate**” columns.
