

# Standard pharmacy-related prior authorizations

The medications included in this chart require prior authorization before benefits are available. Your health care provider will need to submit a prior authorization request to us. Please speak to your provider about whether any medications prescribed to you necessitate this step. This list is not complete and is subject to change. For information specific to your plan, please call our Member Services Department at the number shown on the back of your Blue Cross and Blue Shield of Nebraska member ID card.

Program Name or Class	Medications
